

PECO-GRAPH SOFTWARE

INSTRUCTIONS FOR THE DOWNLOAD OF THE PECO-GRAPH SOFTWARE

PeCo-Graph is a powerful user-friendly program that collects analyses and displays the counting data acquired by Visual Tools's people counting applications.

HARDWARE & SOFTWARE REQUIREMENTS

To use the PeCo-Graph application, your PC or laptop must accomplish the following minimum requirements:

- Microsoft Windows XP, Windows Vista, W7 or W8.
- Run time .NET Framework v4.0
- SVGA graphic card, 1,024x768 screen resolution. Colour monitor, mouse and keyboard.
- 1 GB of RAM memory recommended
- 15 MB of available hard-disk space for the application files and 100MB for the database
- Ethernet network card (TCP/IP).

INSTRUCTIONS

1. Install first the redistributable package Microsoft .NET Framework version 4.0 (available at the site of Microsoft). This package is essential for the operation of the program, and must be installed before it.
2. Once the package Microsoft .NET Framework has been downloaded, proceed to the download and installation of the PeCo-Graph application.
